

Steel Strap Cutter Hammer Handle

Specification:

Item No.	Length(mm)	Weight(kg)	Replacement blade
SS 450-HH	440	0.8	-

*Replacement blade "SSC 450" is NOT for SS 450-HH.

Capacity:

steel strap: up to thickness 0.9mm×width 32mm

Feature:

HITTING POINT

A specialized design for users that used to hit the handle with hammer.

If steel strap was tight to the object, cutter may won't able to insert the blade between it. In this case, by hitting that hitting point with hammer, the impact will push the blade to the position then users can cut the steel strap.
