### Specification :

•HR 005

Length:310mm

650mm (full opened)

Weight:1.5kg

Capacity:3.2 / 4.0 / 4.8

•HR 005 CG

Length:320mm

790mm (full opened)

Weight:2.0kg

Capacity:3.2 / 4.0 / 4.8 / 6.4

### Appearance :

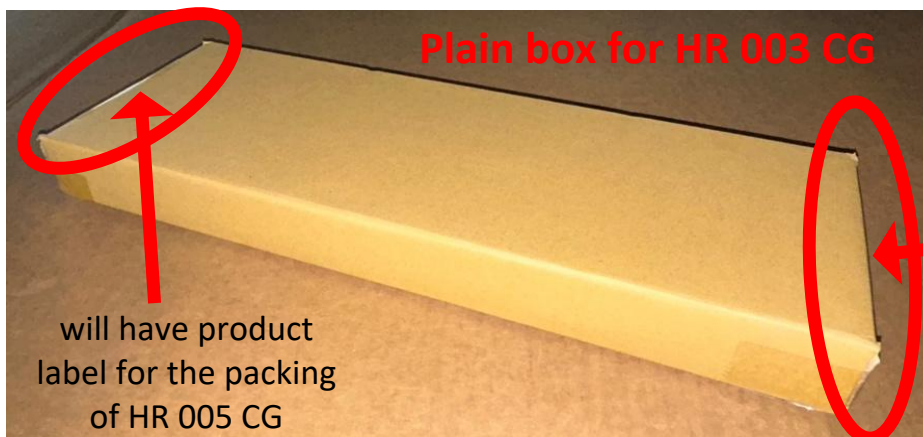

•Packing

Current packing for HR 005:Printed box for the riveter

New packing for HR 005 CG:

Plain box without print, with item label pasted on side.

\*Which looks similar to the packing for HIT HR 003 CG.

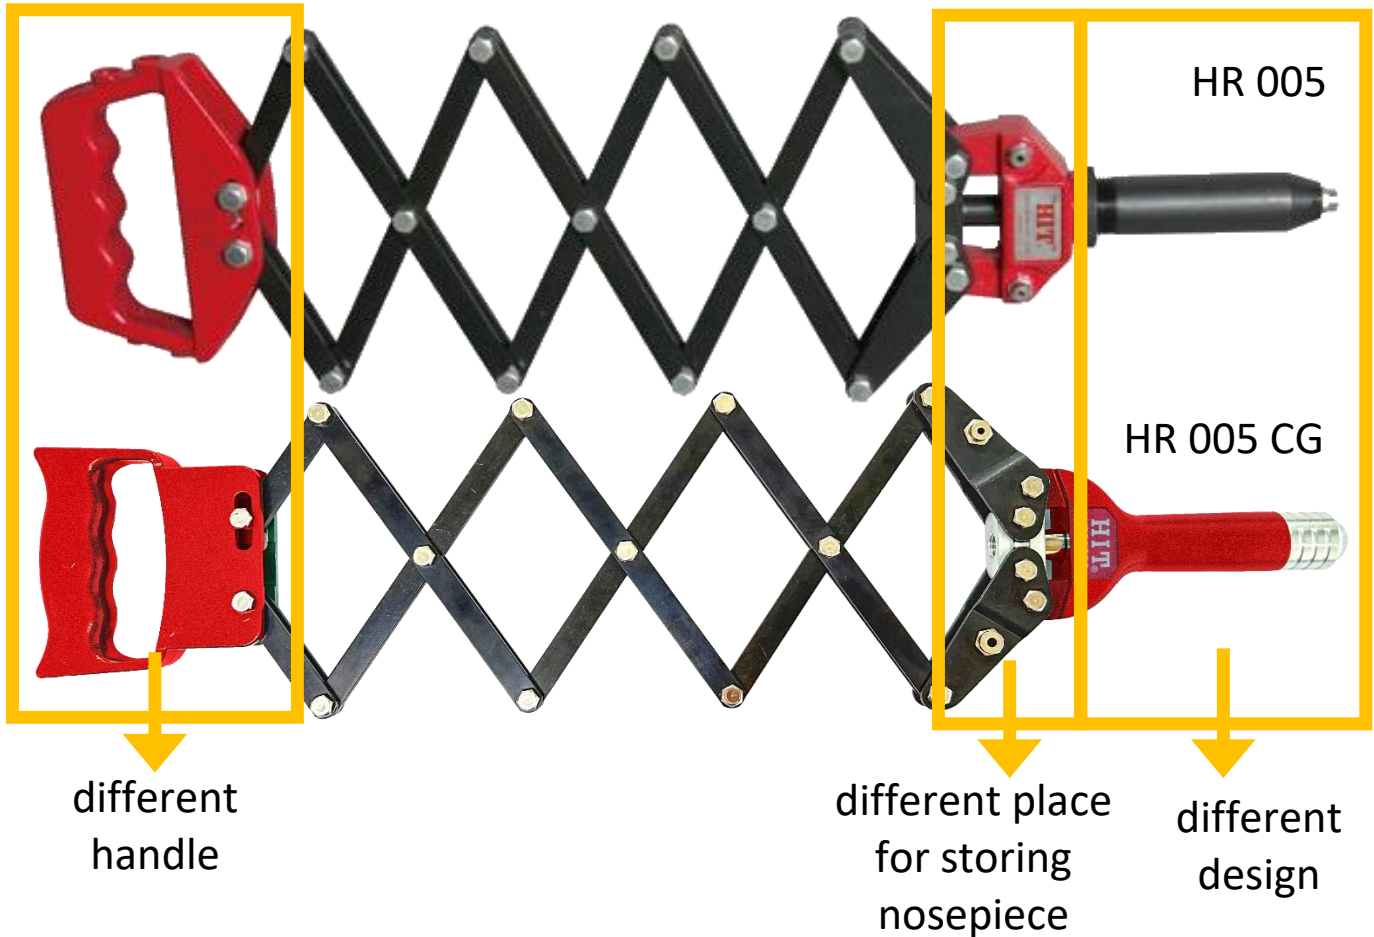

For the new packing of HR 005 CG, product label for HR 005 CG will be pasted on both side of the box, like the red circle in the above.

And the layout of product label for HR 005 CG will be similar to the one for HR 003 CG.

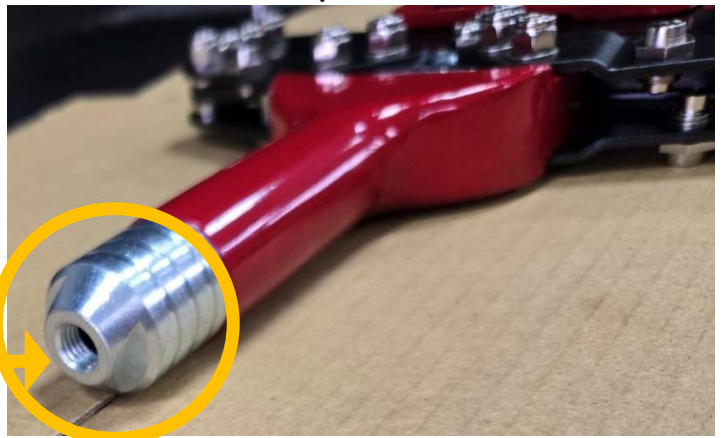

•Product difference

About nosepiece:  
HR 005 CG has 4 different nosepieces, which is more than HR 005.

Its default state is "having no nosepiece on the top".

The place for storing nosepieces is on the front link frame of HR 005 CG, which is different from HR 005.

Please take the nosepiece from the front link frame and install it.  
(Nosepieces will have number carved that shows its capacity)
